

1st Pan-Hellenic Conference & Exhibition on Building Materials and Elements

Organizing Committee

Coordinators

Members of the Administration Bodies.

Th. Drahgiotis, Civil Engineer

K. Kremalis, Chemical Engineer

A. Moropoulou, Chemical Engineer

Members

Representatives of the Academics, the Producers and the TCG Scientific Committees

N. Balsis, Chemical Engineer

I. Basiotis, Chemical Engineer

M. Beazi-Katsioti, Chemical Engineer

V. Diakomichalis, Civil Engineer

A. Dimitriadis, Architect Engineer

D. Dimitriou, Architect Engineer

R. Drakoulis, Mechanical Engineer

F. Fotopoulos, Chemical Engineer

D. Giannidis

A. Giannoudakos, Chemical Engineer

I. Kanitaki, Civil Engineer

E. Kapartzianis, Chemical Engineer

A. Karamberi, Chemical Engineer

K. Karasoulas, Architect Engineer

N. Karistinos, Civil Engineer

K. Kolovos, Chemical Engineer

K. Laskaridis, Geologist

G. Lekkas, Chemical Engineer

K. Mandis, Mechanical Engineer

N. Marselos, Civil Engineer

N. Michas, Chemical Engineer

A. Moutsatsou, Chemical Engineer

Th. Panou, Architect Engineer

S. Peltekis, Naval Engineer,

P. Skarlatos, Chemical Engineer

S. Tsvilis, Chemical Engineer

The Technical Chamber of Greece organises the **1st Pan -Hellenic Conference & Exhibition on Building Materials and Elements**, May 21-23, 2008 at the Divani Caravel hotel.

The sector of Structural Materials and Elements constitutes one of the major sectors of our country's Industry concerning a great number of producers, constructors and users.

The rapid progress of science and technology in the sector of structural materials has as a result the growth of new materials and application methods, which are friendly to the environment and

potentially energy saving. This requires special knowledge and experience not only in the sector of studies but also in their application.

The necessity of enforcement of many European Directives and particularly of the Directive 89/106, European Models and CE Labelling of products, create new requirements for the production and use of traditional and new materials.

The Conference's target, which is organised in collaboration with the producers of the sector, is to inform all the interested parties, to diffuse knowledge in the areas of research and technology and to exchange opinions, with the prospect of further growth in the sector of structural materials and their applications.

Through this Conference, the Technical Chamber of Greece aims at the safeguarding of existing relative provisions and regulations enforcement, as well as at their systematic and rational way of enforcement, aiming at the precise and effective control of the market and the protection of consumers.

Topics

- Raw Materials, Industrial Production and Logistics. Building Materials Market.
- Standards, Requirements, Regulations, Market Control, Labelling. Quality Control. Regulatory frame.
- Research, Technology and Innovation. Energy Saving, Recycling and Environmental Protection.
- Safety and Hygiene in the Production and Construction.
- Applications.

Building Materials and Elements:

- AGGREGATE MATERIALS
- CEMENT, CEMENT, PLASTERS
- CONCRETE PRODUCTS
- CERAMIC MATERIALS AND PRODUCTS
- STRUCTURAL PRODUCTS OF NATURAL ROCKS
- METALS AND PRODUCTS
- WOOD AND PRODUCTS
- GLASS AND PRODUCTS
- HEAT AND SOUND-INSULATING MATERIALS AND PRODUCTS
- WATERPROOF MATERIALS. ASPHALT AND PRODUCTS
- COLOURS, VARNISHES.
- PLASTICS FOR STRUCTURAL USES
- FIRE RESISTANT MATERIALS AND ELEMENTS
- REPAIRING MATERIALS
- RESINS FOR STRUCTURAL USES
- INNOVATIVE PRODUCTS –NANOMATERIALS

Deadlines:

30 June 2007 - Submission of abstracts (one page long)

30 September 2007- Acceptance of abstracts

30 November 2007 - Submission of papers

29 February 2008 - Acceptance of papers

01 April 2008 - Submission of final papers for the proceedings

Registration for the Conference as well as submission of abstracts and final papers should be send to: **Domika_ylika@central.tcc.gr** or via fax.: ++30 210-3291353

Please use the Participation Form below.

Participation Form

1st Pan-Hellenic Conference & Exhibition on Building Materials and Elements

Name:.....

Company:.....

Tel.:.....

Fax.:.....

E-mail:.....

Address:.....

City:.....

Post Code.....

Country.....

I am interested in:

- Attending the Conference
- Contributing an article
- Contributing a poster
- Exhibiting
- Sponsoring
