Conference, Athens 15 September 2016

The Event on “Greek-Azerbaijani cooperation in the fields presenting prospects for Greek Engineers and Greek Technical Companies” was organized by TCG in cooperation with the Hellenic Azerbaijan Chamber of Commerce & Development, aiming to assist Greek Engineers to expand their activities abroad, by exploring new perspectives and opportunities for the technical sector of the country.

“We want to assist and support the Greek technical companies and the Greek engineers, in practical matters, towards extroversion. For this, we organize series of events, that open roads in various regions of the world such as the Middle East, sub-Saharan Africa, Cyprus and Israel, in cooperation with other Greek and foreign chambers. And others will follow. The Greek-Azerbaijani cooperation can be multi-dimensional in all areas of technical interest. We have expertise and we only need will, planning and efficiency in order to change opportunities to reality”

Mr. Giorgos N. Stasinos, TCG President

First Hellenic Stock Exchange Market Conference’s 1st day Venue
TCG President, Mr. Stasinos, highlighted the importance of reforms that must be implemented in Greece, such as:

change on urban planning, acceleration in compiling of the national land and the forest maps, political decision to activate/retrieve the dead capital by arranging the arbitrary buildings and privatizing land and property, change of the property taxation system, liberalization and institutionalization of the profession of appraisers, promoting the energy upgrading of buildings, resolve conflicts in land issues with the institutionalization of the profession of mediators and the creation of a land bank, digitalization of institutional directions and e-Government, enactment of incentives for the strategic investors, consolidation of the financial system to ensure sustainable financing, etc.
European Researchers’ Night
30 September 2016

The European Researchers’ Night is a celebration for Science and Research held every year in more than 300 cities across Europe.

In Greece, this year’s Night was organized in six cities: Athens, Thessaloniki, Patras, Larisa, Heraklion and Rethymnon. The event took place at the Averof Building of the National Technical University of Athens (NTUA) Patission Complex. The Researchers’ Night at NTUA was organized under the Framework Programme H2020 (2014-2020) by the Marie Skłodowska-Curie actions.

The European Researchers’ Night aims to bring researchers closer to the general public and to increase awareness of research and innovation activities, with a view to supporting the public recognition of researchers, creating an understanding of the impact of researchers’ work on citizen’s daily life, and encouraging young people to embark on scientific careers.
